To whom it may concern

References for the NOVO Property Management system by NOVO Technologies

Dear Sir/Madam,

I recommend the NOVO PM system as a very good tool for large commercial real estate property management companies, managing diversified portfolios of facilities (retail, office, logistics and warehousing).

NOVO PM, which we chose, turned out to be a perfectly matched platform for such a large, leading asset and property manager on the Polish market as Savills. The implementation of the NOVO PM module was quick, the implementation team was responsive and professional. Daily use of the system, despite its complexity, is intuitive and perfectly suited to Polish market conditions.

In case you might be interested in some specifics of the NOVO software and Savills experience with it, feel free to contact me or my colleagues.

A handwritten signature in blue ink that reads "Michał Bryszewski".
